Recently I am interested in Skandynavian culture and I learn danish language. I am keen in dance theory and choreography, have experienced different techniques.

**What do you expect from your employer?**

I will be glad if the employers gives me:

- opportunity to use my skills and experience that cannot be used in any other craft
- get experience to work in changing surrounding and in specific, spontaneous way
- motivation by giving me responsible and creative tasks, not exact and stiff schedule of duties
- respect me and treat me as a partner

**Can you describe yourself (personality)?**

I am a kind of person that is very creative at work when feel free in acting. I mean that I can give a lot of myself when there is a task or a problem to solve.

I think I'm open-minded and tolerant in contact with other culture and traditions. I fully comprehend the cultural diversity of human beings and actually I am really interested in this topic.

I don't like to do something unprofessionally - I like to know the case before doing however I have good improvising skills and can get prepared to a new task quickly. I learn very fast.

**Why should we choose you?**

In my experience I included my work at dance campuses for children. In that job I learnt how to animate kids in different age and give them variety of activities form early morning to evening. I had to relate/ join many profession in one. Also while leading dance classes I have to know and feel the group quickly to introduce proper exercises. I think that is a good experience as for animator.

What's more I'm very sociable person and love to talk and listen about different stories of people.

My friends say I have a gift to encourage people to do extraordinary things and to bring people together.
