What do you expect from your employer?

Good working environment in international team and for being protected in any situations connected with work and staying in other country (medical protection, visa etc.)

Can you describe yourself (personality)?

I am very active and creative person in various fields. During the years of high school I used to act in plays, organize various events and celebrations, where usually I had to be on the stage as show presenter or play some kind of character, so being on spotlight is natural for me. Also I am very loyal and responsible as in my last work I was in charge of all customers payments. Also I am very easy going and can easily adapt in team or international community as now I am studying with many international students and working in international organization

Why should we choose you?

I love animation job and I am doing it from my heart. I think there are two kinds of people: one can be an animator and other do not. For being an animator you need to have too much of energy, natural habit to smile all the time, be not only social, but also to know how to communicate with different groups of people and of course to be able to express yourself and enjoy being on the stage and in the middle of everybody's attention. All these things suit me. Also I am perfectionist. I always struggle to be the best in all my activities and to be seen for that. In the end I am very warm, friendly and funny person and people remember me for a long time
