Can you describe yourself (personality)?

I am creative that is based on my skills of my handling on different positions of work in the past. Adversities don't exist for me because I am able to manage with problems due to good ideas and analitical thinking. I am in a group of communicative people and it what I especially appreciate in my life is an oppportunity to talking and making good contact with others. I am not a kind of person who protect own privacy owing to avoiding people because just PEOPLE are my basic factor which influence on my willing to live and enthusiasm. That's why work with people is my favourite form of work.

Why should we choose you?

I am strongly dedicated to my work. I like people and people like me. I would love to be an animator.
